

# Announcing the new *Fast Release* Card Program

For those customers who waited too late or just need to roll their card program out faster than design and production realities allow; we have created a solution! We have preprinted the card shown above and are ready to accept orders in three quantities which ship five days after pdf approval. This program is not intended as a replacement for custom cards but a fill-in-the-gap answer for the merchants who need cards while we complete the design and production of their permanent custom printed cards. We will encode the card with their specifically assigned number sequence, print that number on the back along with their company name and one address. The front of the card will also include an overprint of their company name.\*

100 cards, 100 matching carriers, one stand  
250 cards, 250 matching carriers, one stand  
500 cards, 500 matching carriers, one stand
