

MenuLink Top Twenty Inventory Item Report

The Top Twenty Inventory Report displays the top 20 overused raw materials, identifying inventory variance in dollars and units and units wasted. It helps managers identify and control problem inventory items. The report also show the "bottom 10" to help you target under-portioning or mis-portioning.

Sandwich #1, Oriental Ave.		Top Twenty Item Usage				Fiscal Year: 2006 Period: 3
