Please note this guide is published periodically with quarterly updates and subject to change without formal notification. Please contact your Radiant Systems Account Executive or Authorized Radiant Channel Partner for the most up to date information regarding available interfaces for the Aloha Point of Sale.

All of the interfaces included in this guide are created by Radiant Systems or by an Authorized Third Party. Any interfaces owned by Authorized Third Parties are not developed or maintained by Radiant Systems and are the responsibility of the third party. Third party interfaces listed in this guide are being provided as available options only and are not recommendations. You are solely responsible for selecting the interface that is appropriate to your specific business requirements and technical environment.

Please report any proposed changes, errors or submissions to: partnerships@radiantsystems.com

END USER LICENSING REQUIREMENT
FOR ALOHA CONNECT SOLUTIONS

Some of the solutions noted in the following section are recognized as requiring Aloha Connect licensing. This requires the following key activation on the Aloha Software Key:

A software key is licensed at the site level for Aloha Connect. Since this is a site level license, a quantity of one (1) is required no matter the number of applications leveraging the license. As part of the license, External Interface Terminals (EIT) should be activated on the software key. The number of EITs to be activated coincides with the number of interfaced applications.

• One EIT designated for each interfaced application
• One EIT designated for each hardware device that is integrated (kiosk, mobile device, etc)

For the Aloha Connect license to be functional, a minimum of one (1) EIT must be licensed. There is no maximum for the number of EITs that may be activated for standard Table Service or Quick Service Aloha software key.

Example:
Site has web ordering, mobile payment and handheld ordering. They will need one Aloha Connect license and three external interface terminals (EIT).

Aloha POS Integrations

You have made a significant investment in your technology solution. Ensuring that you can maximize that investment with interfaces to existing technology and new niche market solutions is a top concern.

Aloha Connect provides a structured framework for you to extend the capabilities of your Aloha solution, add breadth to your technology and meet your business needs today and in the future. Leveraging language-neutral development tools to extend Aloha’s rich functionality to other applications, Aloha Connect Licensees can seamlessly integrate approved third party applications to their Aloha solution.

WE SCAN™ offers solutions that make age & ID verification easier, faster, and more accurate than ever before. Our age & ID verification solutions help guard against selling to a minor, which may lead to costly fines, suspension or loss of license, and risk of criminal prosecution and civil penalties. With the swipe of a driver license, WE SCAN™ proactively helps protect the business by decoding the encoded data of all state jurisdictional formats, verifying important information by displaying customer name, age, date of birth, driver license number, and expiration date. Unlike other age verification products, our technology integrates with existing Aloha POS hardware and software and includes important storefront deterrent posters and stickers as the “Front line of Defense”; notifying visitors their ID will be scanned and verified. Optional applications available include: Visitor Tracking, Compliance Reporting, Loyalty tools and Independent, third party ID verification.

FreePour Controls Inc. is a leading developer of inventory control systems for the hospitality industry. The company has been in business since 1987, offering a complete line of bar inventory management products. The solutions we offer help manage inventory and deliver profits to our clients.

FreePour Controls has a solution, for draught beer and liquor products, to suit the diverse needs of the hospitality industry in beverage cost management. Each solution has the same fundamental benefits – fast, easy, accurate, invisible to customers, and can be interfaced with your Aloha system.

The FreePour solutions provide powerful and timely reports that make your bartenders accountable, thereby creating a deterrent to waste, spillage, over pouring, and theft. The result is increased bar profits that inevitably cover the cost of the systems.

Tabbedout is the mobile payment solution that enables consumers to open, view and pay a bar or restaurant tab with their phone. Tabbedout makes mobile payment a simple and secure process that is widely available, so bars and restaurants can spend more time with their customers. The free Tabbedout mobile app for iPhone and Android lets consumers open a tab with their phone, view their tab in real-time and pay the tab anytime, anywhere, giving them control over how and when they pay. Our mobile payment solution integrates directly with the merchant’s point-of-sale (POS) system and does not require additional hardware.

Repeat business is the lifeblood of the restaurant industry. Many successful restaurant operators are turning to electronic frequency and restaurant loyalty programs to deliver targeted rewards and incentives that stimulate repeat business and increase store traffic.

The Aloha Loyalty solution delivers flexible, customizable reward and bonus programs. It also allows your organization to quickly design, roll-out and manage effective restaurant loyalty programs that will not only attract new customers, but also turn your existing customer base into “ideal customers” who have the purchasing habits that will drive topline growth for your restaurant.

**New Features**
- Member less Auto Loyalty Assignments
- Issue Merit for POS comp or promo
- Real time rewards discount
- Number of company-defined member profile fields
- Restaurant Guard integration with Loyalty

Our core business is focused on designing, producing, and distributing magnetic striped, bar coded and chip based cards that are used for gift card programs, loyalty/frequency programs, card marketing programs, and other forms of electronic payment. CMS provides card-based programs which include but are not limited to: guerilla marketing, cause-based marketing, direct mail, B2B, email marketing, online gift card ordering & fulfillment, and much more. An integrated selling system that helps drive customer volume and relationships...all tracked through the Aloha POS system.
Gift cards are a cost-effective way to drive revenue growth and increase store traffic. In addition, a great customer loyalty solution will attract new repeat customers and helps you maintain a competitive edge in today’s crowded restaurant marketplace.

Aloha Stored Value is an industry-leading gift card distribution and management solution tightly integrated with Aloha POS. Easily implemented, our gift and stored value card programs can be managed effectively across various locations, while gathering important sale and profitability reports.

Key Features and Benefits
• Grow Revenue
• Stimulate Repeat Business
• Reduce Administration Time & Costs
• Create Targeted Marketing Programs

Providing a memorable guest experience will set you apart from your competition and keep your customers coming back. The new innovative Aloha Guest Manager solution intelligently tracks table status, reduces the time tables that are left unseated, maximizes seating efficiency and captures key guest information to help you provide personalized service.

Radiant System’s Aloha Guest Manager solution allows you to improve your guest experience by seating your guests quickly and efficiently and quote accurate wait times. It offers reservation management, waitlist management, table management and guest tracking that is synchronized in one tightly integrated solution with the Aloha Point-of-Sale.

**Aloha Guest Manager Benefits**
- Seat More Guests
- Increase Seat Utilization
- Enhance Guest Experience
- Increase Host Productivity
- Enable Operational Analysis

Aloha Takeout

Efficiently managing the realities of your takeout and delivery operations quickly improves your speed of service and gives you the opportunity to grow beyond the walls of your business. Using Aloha Takeout, your order entry, order management production and delivery is synchronized in one tightly integrated solution. Aloha Takeout provides an innovative solution to streamline take-away and curbside operations and incorporates the tools needed to manage deliveries to remote locations. Extending Aloha’s feature-rich Quick Service and Table Service applications, your staff can now focus on smooth restaurant operations and superior guest service.

New Features
• Future Order Statement
• Added Customer Credits
• ‘86’ Items Print in Header
• Added Support for COM Peripheral Lockdown
• Added Repeat and Future Order Support for Revenue Items
• Added Order Address Functionality

Restaurant operators need centralized hosted applications to efficiently analyze operational data and automatically alert management to issues that require attention.

Aloha Insight is a web-based application that collects sales and labor data at the restaurant and makes it available via the Internet and through distributed reports. This powerful tool provides critical capabilities to your business such as drilldown viewer options for fast, high-level to granular examination of data, real-time reporting and data replication for local data warehousing and exports to accounting, payroll, and HR systems.

New Features
- New Features Page for New Release
- Custom Portal Home Page
- Check Detail Viewer Filter
- Multiple Browser Support
- Reset Enterprise Passwords
- Report Date Ranges
- Support for Network Commands

Radiant Systems’ point-of-sale (POS) terminals, kitchen display systems, kiosks, back office PCs, peripherals and handheld devices are designed to maximize simplicity and speed in every part of your restaurant’s operation. Radiant hardware takes orders faster up front, routes them more precisely for kitchen staff, presents them more fully to customers and records them more securely for management.

Built from the ground up to withstand long hours of constant use, spills, dirt, grease and other harsh conditions common to restaurants, Radiant hardware also minimizes costly and disruptive downtime. Day in and day out, Radiant hardware increases sales and customer satisfaction while keeping costs down.

Key Features and Benefits

• Grow Revenue and Profits
• Enter Orders Faster
• Increase Order Accuracy
• Speed Up Food Production
• Improve Data Security
• Maximize Uptime
• Minimize Disruption
• Invest Wisely
Coalfire is a leading IT audit and compliance firm that provides solutions to clients throughout North America. Industry expertise focuses on finance, government, healthcare, education, legal, public utilities, and retail. Our solutions are adapted to requirements under emerging data privacy legislation including PCI, GLBA, HIPAA, NERC CIP, SOX, and FISMA. Services include IT audits and control reviews, risk assessments, penetration testing, vulnerability scans, disaster recovery planning, software application reviews, and incident response support including digital forensics. Leasing Partner
Established in 1979 Vend Lease is an equipment leasing company whose specialty is providing customized POS lease programs to the Hospitality Industry! As the POS industry’s premier DIRECT FUNDING SOURCE (we are NOT a broker!), we are able to put our niche oriented expertise to work in helping you move more equipment - “MORE APPROVALS = MORE SALES”. We offer a “One Stop Shop” for A, B and C financing. We approve start-up businesses “in-house” with no dollar or term restrictions. Vend Lease controls all transactions from receipt of a credit application - until final funding. Please contact VLC to discuss how we can become a strong lease partner for your company.

Radiant Payment Services (RPS) is the preferred payment processor for Radiant Systems. Through our fully integrated payment solutions, we help businesses safely process electronic payments and efficiently leverage the information related to those transactions. From point of sale authorization to settlement of funds, RPS merchants have access to the most robust payment options available – including everything necessary to accommodate the nearly one billion credit cards now in the hands of American consumers. At RPS, we are committed to delivering an integrated, turn-key payment processing solution and strive every day to create an exceptional customer service experience for you and your customers.
POWERVAR, Inc. of Waukegan, IL is the first choice in power protection for OEMs and resellers in the POS industry. All POWERVAR solutions incorporate a high energy surge diverter, a noise filter, and a low impedance isolation transformer. Together these components prevent power disturbances from destroying and degrading semiconductor components or disrupting the computer system’s operation.
