The items that appear are determined by the 'FOH Quick Count Report' options in Maintenance > Menu > Items > Quick Count for menu items (composite items) and Maintenance > Quick Count > Tracking Items for associated tracking items. Each item displays, one at a time, on the screen. Use the up/down arrows to scroll through the tracking items. Touch Print to receive a hard copy of this report at the receipt printer attached to the terminal. Touch Done to exit the report.

The report is also accessible from the BOH by selecting Reports > Quick Count.
