alert description
Transfer Scam

 The **Transfer** or **Wagonwheel Scam** typically involves transferring self service items (those that don't generate a kitchen chit), such as a coffee or soda, off of a check that has been paid for with cash and reusing the same item on another check.

Example:

- A guest orders a soda and sandwich and is presented a check with both items.
- The guest pays for the check with cash.
- The server transfers the soda to another check and then closes the check with only the sandwich remaining to cash, pocketing the difference.
- The check with the transferred soda is then used for the server's next table.

Employees engaging in this activity will often transfer the same item multiple times; each time the item is successfully transferred from a cash check results in a sales loss for the restaurant and a fraudulent cash gain for the server.
